May's board meeting was well attended. Residents discussed a home that is being short-term rented through one of several on-line services. This is not prohibited in our deed restrictions. At this time there do not appear to be any specific problems to report, but we will keep an eye on the situation and focus on making sure that this does not impact our common parks and beach.

We also had a great suggestion, that a memorial walk (flags optional) to White Sands Beach the morning of Memorial Day. Although residents may

want to participate this year, the Board thought that formalizing this for next year alongside a 5K run might be a nice idea.

Our financials look good, partially due to reduced spending on neighborhood events during COVID restrictions. Speaking of which, since COVID restrictions have been relaxed, it has been decided to formalize our neighborhood 4th of July celebration. We will add a fireworks display that Friday. See Page 12 and the back cover for more information.

Although the County presently has no funding, we are compiling a list of sidewalks and street surfaces that need immediate attention. Send these locations (need street address) to MarkTempest@originalcarrollwood.com for our records.

Lastly, we would like to welcome John Schinka to our Board. John will be serving as Treasurer. We want to thank Jamie Sheer who has provided many hours in service to our Community as Treasurer over the years. Jamie will stay with our Board in an at-large position.

# CRD News

By Mark Snellgrove, CRD President

The Board is in the very early stages of researching the steps to follow for increasing the District's annual tax assessment. Just at the May meeting, we had twelve residents in attendance asking for major improvements that are big expenditures. We have averaged 6 to 12 residents attending the meetings for the last 18 months. We are managing the tax dollars like a rubber band, repairing things as they break. Ultimately, this would require a community vote (referendum) during a regularly scheduled election and the soonest that could occur is August 2022. If the Community approved it, the soonest we would begin receiving the additional dollars would be November of 2023 and into 2024. So as you can see, this is a very long process and no decision has been made yet.

Also, at the May meeting, Board member Mike Carelli invited a local locksmith for a access control presentation (using a fob). It created more questions and is complex and very expensive. No decision was made.

Work should begin soon at Scotty Cooper Park on new fencing and new entrance gate. The gate will be key access.

In closing, Board member Chrissie Price reported that we are still four weeks away from the new sign completion at Lake Carroll Way & Dale Mabry Highway. Per Chrissie, "the brick had to first be added

before the pattern could be taken for the fabrication of the custom panel." So, the white banner is temporary. 

**The Board of Trustees of the Carrollwood Recreation District, a Florida independent special district, will hold a public hearing on Monday, June 14, 2021, at 6:30 p.m. The purpose of the public hearing will be so property owners and residents within the district may appear and be heard before the adoption of the 2021-2022 budget. The meeting is open to the public and will be held at the Carrollwood Recreation Center located at 3515 McFarland Road, Tampa, Florida 33618. Persons with disabilities needing special accommodations to participate in this meeting should contact the District Office at 813-932-1257 at least 24 hours prior to the meeting. More information on the District can be found online at: [www.OriginalCarrollwoodCRD.com](http://www.OriginalCarrollwoodCRD.com).**

# Boating safety, driving tips

by Bryan Huls, CCA Lake Carroll Committee

As our lake has gotten busier over the last few years, it is time to renew our focus on boating safety and etiquette on Lake Carroll. Follow these basic safety tips and enjoy Lake Carroll with family and friends.

## BOATING SAFETY:

For more information and boat safety courses visit: [myfwc.com/boating/safety-education](http://myfwc.com/boating/safety-education)

In order to operate a motorboat of ten (10) horsepower or greater, Florida law requires anyone who was born on or after Jan. 1, 1988, to successfully complete an approved boating safety course and obtain a Boating Safety Education Identification Card issued by the FWC.

### Use and maintain the right safety equipment.

Have a U.S. Coast Guard-approved life jacket for each person on board and one approved throwable device for any boat 16 feet and longer.

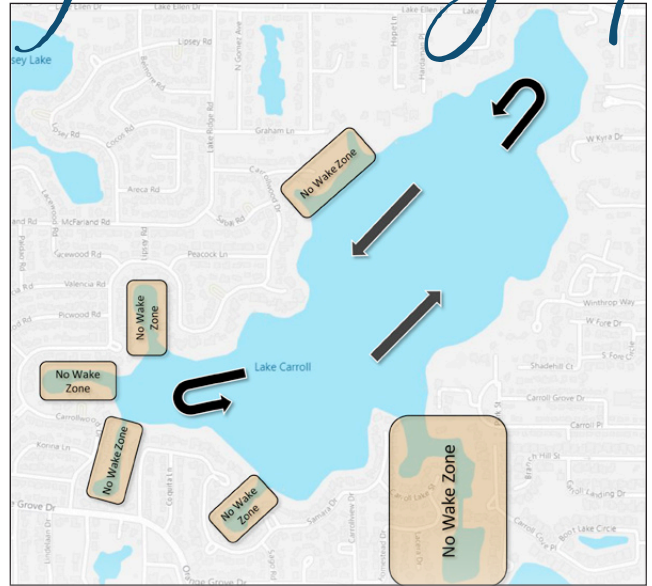

## LAKE CARROLL: BOATING & PERSONAL WATERCRAFTS (PWC, JET SKI, SEA-DOO)

White Sand Beach area and the canals are considered a “NO WAKE ZONE.” For safety of other boats and swimmers, enter and exit at a slow, safe speed.

Life jackets must be worn by all personal watercraft riders and skiers.

Always boat on Lake Carroll in a counterclockwise direction.

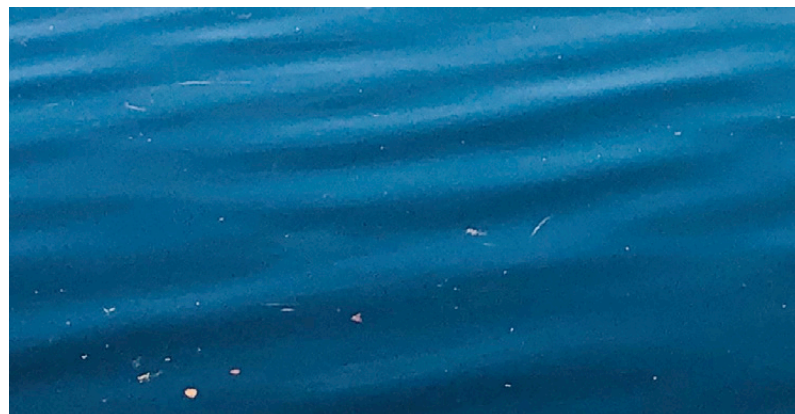

Check the boat traffic on the lake. If there are too many boats pulling skiers/tubes, then wait until a few skiers are done with their runs. The fewer boats operating with skiers on the lake, the safer it will be.

Mornings and evenings are typically times with fewer boats on the water.

Never allow passengers to ride on the bow area of a boat, gunwales or outside of protective railings/seats, including the front of a pontoon boat. A sudden turn, stop or start could cause a fall overboard.

The main rule we see broken is boaters & PWCs (jet skis) following other boats pulling skiers/tubes entirely too close. Never follow directly behind another watercraft. PLEASE GIVE SKIERS and TUBES SPACE.

# and Etiquette

## PULLING SKIERS (SKIING, WAKEBOARDING, SURFING, TUBING)

All skiers/wakeboarders/surfers should wear a Coast Guard approved life jacket.

Use a spotter and/or a large mirror and be aware of other boats in your area.

Keep your skier a safe distance from all docks, boats, structures, paddleboarders, kayakers, etc.

Avoid power turns: When a skier falls, make sure to come off the throttle and slowly turn/approach your skier. This is unsafe and throws wakes throughout the lake. The only time a power turn is recommended is if you are in a busy area with approaching boats or a skier could be injured.

## BOATING ETIQUETTE TIPS

**When wakesurfing or driving a larger boat that can create a large wake:**

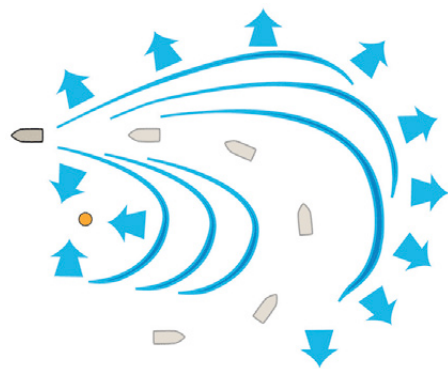

Diagram 1: Power turns send wakes out in all directions, even toward the rider.

Stay at least 200 feet away from structures or shore; this allows your wake to dissipate before impacting

the shore & docks.

Avoid close passes to other boats, paddleboards, kayaks and docks.

Keep music at a responsible level; sound travels much farther than you think on the water, and loud music can ruin other boaters' and homeowners' peace and quiet.

Finally, be aware of how your wake is affecting others. In addition to other boaters, docks and shoreside properties, this applies to other watersports enthusiasts too. When you pick up a downed rider, do not remain at surfing speed and make a big looping turn back toward the person in the water.

Please share these safety and driving tips with others on Lake Carroll, including boaters that are not in Original Carrollwood.

Follow these basic tips and everyone will enjoy their time on the water we share.

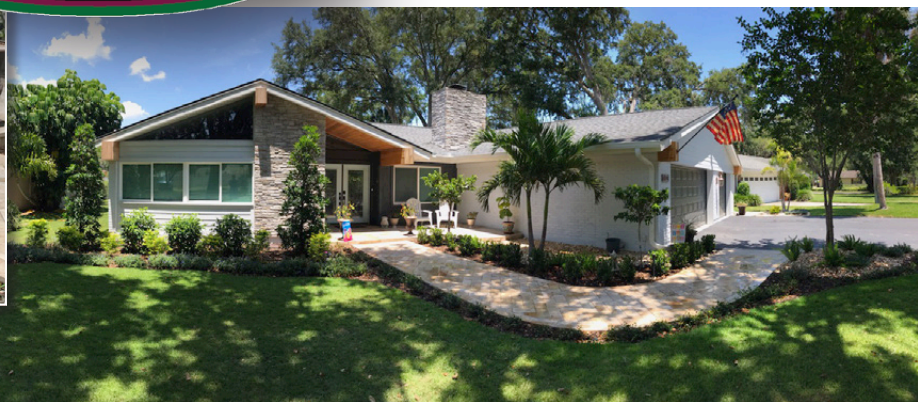

Share the water responsibly & watch your wake.

Feel free to contact us to review any boating safety tips in more detail.

Johannes Family**

Chip & Shari Johannes with daughter  
Maddie & dog Louie

We were thrilled to be chosen as this month's Yard of the Month! We moved to Original Carrollwood in February 2007 with our sons, Chase and Tyler, while expecting the birth of our daughter, Maddie. We searched for a home for many months, but held out to find one here in Original Carrollwood because we were drawn to the beautiful tree-lined streets, the parks, and the amenities of the neighborhood.

Since then, we have realized that we hit the jackpot! Our children have grown up enjoying birthday parties at White Sands Beach and Scotty Cooper Park, costume walks on Halloween, and Easter egg hunts. Chase was even the Easter bunny one year. We love the lights and luminaries at Christmas, and we started with some of our neighbors the tradition of lighting our street every year. We live on a small lake and take great pleasure in the wildlife that we see in our backyard every day and all around the neighborhood—blue herons, hawks, owls, turtles, ducks, squirrels, peacocks, and sandhill cranes. I could pass on the snakes; but I stay out of their

way, and they stay out of mine.

Over the years, we have enjoyed getting to know our neighbors and feel very at home here. We have heard many stories about kids who grew up here and moved away, only to come back to this special neighborhood. We even met someone who grew up in our house and now has a third home in Carrollwood. It is not surprising to us that people want to stay here or come back. Our sons are grown now, and Maddie starts high school next year. After raising our children here, we are delighted to see many new and young families moving in.

Our home has undergone many renovations over the years, and we were fortunate to be able to put the finishing touches on the exterior and add to new landscaping last year. We enjoy working in the yard and adding new things when we can. We hope that people enjoy seeing the yard and updates that we have made to the house.

## OC Resident and Attorney Mike Hancock Named Top Lawyer 2021 in Two Categories

The team at Hancock Injury Attorneys are thrilled to announce that Attorney Mike Hancock has been named Top Lawyer 2021 by TAMPA Magazine, for not one, but two categories: Personal Injury Litigation and Product Liability Litigation for Plaintiffs.

TAMPA Magazine's Top Lawyer nomination is a peer-reviewed award. The magazine obtains a list of all attorneys from the Florida state bar, and reaches out to over 11,000 practicing attorneys in Hillsborough, Pinellas and Pasco counties to nominate their peers for their exemplary work. Out of 87 different practice areas, surveys ask lawyers to nominate the highest level of ethical standards and professional excellence among the nominees.

In Attorney Mike Hancock's own words, "This award is an honor, and I am very thankful to all who have recognized my work. I could not have done this without the help of my team and the hard work they do everyday. We look forward to continuing serving those who have been injured by another's negligence."

*More about Mike Hancock:*

## OC REAL ESTATE

### REAL ESTATE 101: MARKET SLOWDOWN ?????

By M. Wayne Wilson, Realtor and  
Former Original Carrollwood  
Resident 42 years

**W**hat's with this crazy market? Especially here in Original Carrollwood. Unless the price that the seller is asking for is astronomically high, our homes are selling in days and sometimes just hours. Does it remind you a little of 2008? As I stated in an earlier article, things are much different than 2008. Of course the main factor is that interest rates continue to be low. How long will that last? No one knows, but it has certainly been affected by the COVID.

Fannie Mae and Freddie Mac have both predicted a softening of previous estimates. Most of this will be related to mortgage originations as interest rates slowly increase. Keep in mind that "mortgage originations" include the many refinancing loans that people have gotten to reduce their interest rates and thereby their monthly payments.

The higher prices are finally beginning to reach a point that prevents some potential buyers from getting into the market. Still the FHFA Home Price Index is predicting a rise in home sales for 2021 to be 8%, however, in 2022 that's anticipated to fall to 2.9%. The current increase is due in part to interest rates holding steady while the economy gradually gets back to normal.

So, as always, the question remains whether to buy or sell? Will the housing market begin to take a dive? My answer to that is the old stock market saying, "You can't time the market". You have to do what you believe is best for

you and your family over the long term.

It's always best to remember that when you sell something you have to find something else, and while you can make substantial profit on your current investment, will you end up spending all of that gain on your new investment? Rest assured that the rental market in these times is taking great advantage of the housing shortage by jacking up their prices substantially. So that's not going to be a cost saving measure.

# Puzzle OF THE Month

## Donut Math

Some office workers were holding a daily pool on the number of doughnuts their boss would eat each weekday morning during May. Each person set aside funds in their desk with which to bet. Each day from Monday, May 3rd, they all bet a dollar - Gary bet on 2, Patsy on 3 and Tom on 3.5 doughnuts. Tom won twice as many times as Gary, who was right once more than Patsy; sometimes there was no winner. By June, they all had \$20 in their desks. How much was the most anyone could have had in their desk at the beginning of May?

*Happy National Donut Day - June 1*

Email your answer to [Caroler@roxc.graphics](mailto:Caroler@roxc.graphics) before June 10. All that reply will have their name, along with the answer, posted in the next issue of *The Caroler*!

### Solutions to Last Month's Trivia Research:

The very first Mother's Day was celebrated in 1908. What is the name of the person who established this day of observance?

**Anna Reeves Jarvis** sought to honor her own mother by establishing an intimate day of observance that is very obviously the basis of today's holiday.
